Good Morning Lisa,

Tiffany has done a good job of keeping me abreast of the situation in regards to the Swinomish workplan. I understand the perspectives of both parties in respect to how the messaging should occur. While this situation has not been consistent with our normal practices in processing projects, it does make sense to me that Swinomish and EPA communicate directly, but due to our role as a pass-through we appreciate you continuing to keep us in the loop with communications.

Since the communication does not seem to address an immediate concern (at least for today) and Tiffany will be back tomorrow, following up w/ her when she returns seems like the best course of action.

This has been a challenge to work through this current hurdle, but Tiffany & I continue to value working with you as our project officer.

Regards,

Dietrich

Hi Dietrich,

Hope this message finds you well. I just also forwarded this to Tiffany - it's the Swinomish Tribe's revision of one of their subaward outputs under the NWIFC LO program. It doesn't look like NWIFC was copied so I just wanted to make sure you had this. Since Tiffany is out until Tuesday, but her message said to contact you during her absence, I thought I'd pass it along to you.

I will call Tiffany next week to follow up with her on this. It looks like Marty did address quite a few of the issues we pointed out, although there are still some important issues, including factual clarifications, that we might want to further discuss. I'll be checking with Gina Bonifacino (acting program manager for the Puget Sound team until November), and Dan Opalski (director of our water program), to get their thoughts on the message below from Marty.

Please call me if you'd like to discuss Ex. 6 - Personal Privacy - and I will certainly call Tiffany early next week.

Lisa

Dan, Angela and Lisa,

Thank you for your guidance over the past several months regarding the Swinomish Tribal Indian Community's What's Upstream public information campaign about non-point source pollution. We have reviewed your thoughtful suggested edits to our content, and have incorporated many of them in the final versions of text for the website and the letter to elected officials, which you will find attached.

The updated website will go live by the end of October, and, we believe, is stronger as a result of your team's input. Thank you again for your assistance and support of this important ongoing project.

All the best,
Marty
